

351 Series Powerglide

A heavy duty cast aluminum ADA compliant door closer. 10 year warranty and all weather capabilities.

351 Series Powerglide

Features

- ANSI/BHMA A156.4 Grade 1
- Conforms to UL10C and UBC for positive pressure fire test
- UL Listed and cUL Listed to Canadian Safety Standards listed for use on fire doors
- 10-year or 10 million cycle warranty
- Versatile mounting applications permit standard, top jamb, parallel and track installations
- Adjustable spring power allows 351 closers a size range of 1 through 6. They are adjusted to size 3 before leaving the factory
- One door closer body for all applications. All 351 are non-handed.
- Meets ADA requirements in all applications except Push Side Track application
- High impact non-corrosive plastic covers standard, metal optional. Both secured with two machine screws
- All weather capabilities
- Captivated brass valves
- Interchangeable forged steel arms
- Standard and parallel arms
- Push and pull track arms (including double egress)
- Heavy duty forged steel arms are finely finished and interchangeable between SARGENT 351, 1431 and 281 Series Innovation

Heavy Duty Construction

- Heat treated full closed rack and pinion provide control from the full open position
- Heavy duty one piece die cast aluminum silicon alloy body with 14% silicon provides superior strength and wear resistance

Valves

- Brass body low sensitivity control valves offer separate regulating for door speed, latching, backcheck and optional delayed action
- All valves are controlled by an 1/8" Allen wrench to discourage tampering and are captivated to prevent removing valves from the body and damaging door closer
- Adjustable backcheck (standard) protects the door and hardware from damage during the opening cycle
- Adjustable delayed action (optional) permits easy access for physically impaired individuals
